

# SAFE CHILD INTERNATIONAL

Children around the world are being abused, violated and exploited every day, but perhaps the most inadmissible instances are those within western judicial and child protection systems.

Judicial decisions in family courts are all too often based on manipulations and hearsay rather than facts or evidence, with our children paying the highest price.

This is one of the most important global issues facing our societies today, as it concerns our children, future generations and our destinies.

*"The world is a dangerous place, not because of those who do evil, but because of those who look on and do nothing." Albert Einstein.*
